

Consultant / Senior Consultant - Carbon

Location - Bristol, London or Manchester

Salary flexible depending upon seniority

Eunomia work a "nine-day fortnight". Full time employees have a 3-day weekend every other week.

About the Company / Role:

Eunomia Research & Consulting is an independent and ethical environmental consultancy. We're social-environmental problem-solvers and researchers with a difference. Combining real world consulting experience and deep knowledge with an active role in policy, empowers us to provide pragmatic, science-led solutions that reduce human impact on the planet.

Eunomia currently has over 150+ employees worldwide, working in five offices, across three continents.

We believe that together, we can harness the power of 'unwasted'.

As the leading experts in our field for more than 20 years, our role is to challenge the status quo. Our incomparable expertise means we ask the right questions and dare to go where others won't. We get to the heart of the real issues impacting our clients' businesses and impacting society.

We specialise in the fields of waste management, resource efficiency, circular economy, low carbon energy, marine planning, natural economy and climate change mitigation.

Our team is unfailingly passionate about the future of our planet and society. That's why every day, we strive to do work that leaves our planet in a better place for the next generation. Our work on creating a regenerative circular economy is testament to this – boundary pushing and innovative beyond the norm, to deliver for planet and people.

Our desire to lead by example, and our enthusiastic and supportive team, makes Eunomia a stimulating and rewarding place to work.

More information can be found on our website www.eunomia.eco or on our LinkedIn pages.

Job Description

You will be involved in a range of activities including acting as a technical lead, client relationship manager, bid manager and project manager. You will also undertake excel based modelling, desktop research, and technical report writing. You will be involved in multiple projects at once. These may involve supporting local authorities in developing carbon baselines and decarbonisation plans. working with businesses to quantify the environmental impact of their products and to reduce their carbon footprint, or supporting national or supranational governmental bodies to develop emissions reduction policies.

This role is client facing and will encompass a range of activities including project management, team co-ordination, client relationship management, report writing and client bid management.

You will be involved and be required to contribute and/or manage multiple projects simultaneously, working predominantly to support both public and private sector clients in a diverse range of market areas, applying creative, practical, common sense thinking to solve real-world problems.

You will work alongside colleagues to deliver projects that meet clients' needs. You will be flexible, with a strong work ethic. You will be highly organised and share our commitment to a high quality of work, as well as being able to demonstrate a personal commitment to tackling environmental and sustainability issues.

Essential Criteria

- At least three years' experience of undertaking GHG emissions analysis and/or supporting the development of decarbonisation plans or strategies to time, budget and client satisfaction;
- Good technical understanding of GHG emission footprinting, and the strengths and weaknesses of various carbon accounting standards including the GHG Protocol;
- Demonstrable experience of applying creative, practical, common sense thinking to solve real-world problems;
- Proven organisational skills, working in a calm, logical way to deliver tasks efficiently;
- Ability to work collaboratively in a team environment with multiple colleagues, peers, and external clients;
- Fluent in spoken and written English, with strong verbal and written communication skills, including technical report writing;
- Good interpersonal skills, including the ability to convey complex ideas clearly and engagingly;
- Excellent all-round IT skills, including the use of Microsoft Office;
- Willingness to 'muck-in' and carry out a range of tasks as required.

Desirable Criteria

- Experience of working within the consultancy business model;
- knowledge and understanding of SBTi;
- Holding a degree, especially a post-graduate qualification, in a relevant discipline;
- Strong research & data analysis skills, including manipulation of large datasets;
- Experience working with local authorities and other public bodies;
- Experience of analysing scope 3 emissions and territorial emissions at a sub-national level;
- Experience working within the consultancy business model;
- A demonstrable commitment to continuous learning and improvement so as to achieve high standards.

Benefits

You will be part of a supportive and friendly values-led work environment, with continued professional development opportunities. A competitive salary with excellent benefits, including a nine-day fortnight, Private Healthcare [which includes dental and optical provision], Death in

Service benefit, Group Pension, Income Protection Scheme (after completion of probationary period) and bicycle purchase scheme. 24 days holiday per year (plus Bank Holidays) rising by 1 day each year to a maximum of 30 days per year and the option to "buy" up to five more days annual leave. Eunomia also shuts down between Christmas and New Year. Staff who choose to take one day's holiday during the period between these dates will receive two additional days of "free" holiday to enable them to take the whole week off work. All of us have a monthly wellbeing allowance and can take an additional 2 days leave a year for volunteering.
